SUMMARY

Motivated, enthusiastic, and easy to work with Computer Science graduate with strong problem solving skills and a willingness to learn. Interested in building software that benefits the everyday individual, with particular interest in full stack web development. Actively seeking opportunities.

EDUCATION

University of California, Irvine — *B.S. Computer Science*

September 2015 - March 2019

3.58 Cumulative GPA. Cycling Team President (2017-2019).

Relevant Coursework:

- CS 122B: Project in Databases and Web Apps
- ICS 46: Data Structure Implementation and Analysis
- CS 161: Design and Analysis of Algorithms
- INF 121: Intro to Software Design
- CS 121: Information Retrieval
- CS171: Intro to AI
- CS178: Intro to Machine Learning

PROJECTS

Personal Website

February 2019 - Present

Portfolio/personal website showcasing myself and my interests. Vue.js and deployed to Heroku, with Spotify API Integration. Plans to continue expanding by integrating other apps such as Youtube and Strava

Todo App

January 2019 - Present

Todo App to help my sister keep track of her homework. Ability to add, remove, edit, and filter todos. Vue.js, Node.js, MongoDB and deployed to Heroku.

Bar Chart Webpage

September 2018

Web app that visualizes sales data using a stacked bar chart. Allows users to filter by product category and time. Written with D3.js, HTML/CSS, and Node.js with a MySQL database for storing CSV data.

SKILLS

Team player

Quick learner

Self-driven

LANGUAGES/TECHNOLOGIES

Python

Javascript (D3.js, Node.js, Vue.js)

HTML/CSS (media queries, flexbox)

SQL (MySQL)

NoSQL (Couchbase, MongoDB)

Heroku, Netlify

EXTRACURRICULARS

Computer Lab Tutor (ICS 45C: C++ as a Second Language, Fall 2017)

Sports Basement (Retail Employee, June 2016 - Current)

AWARDS

Dean's List Student (Fall 2015 - Spring 2016, Spring 2017 - present)

Club Officer of the Year (2017-2018)

Multiple time "Employee of the Day", Sports Basement
